

PROCEDURE TO FOLLOW IN CASE OF A BREAKAGE

Following a break in my windshield, should I contact my insurer?

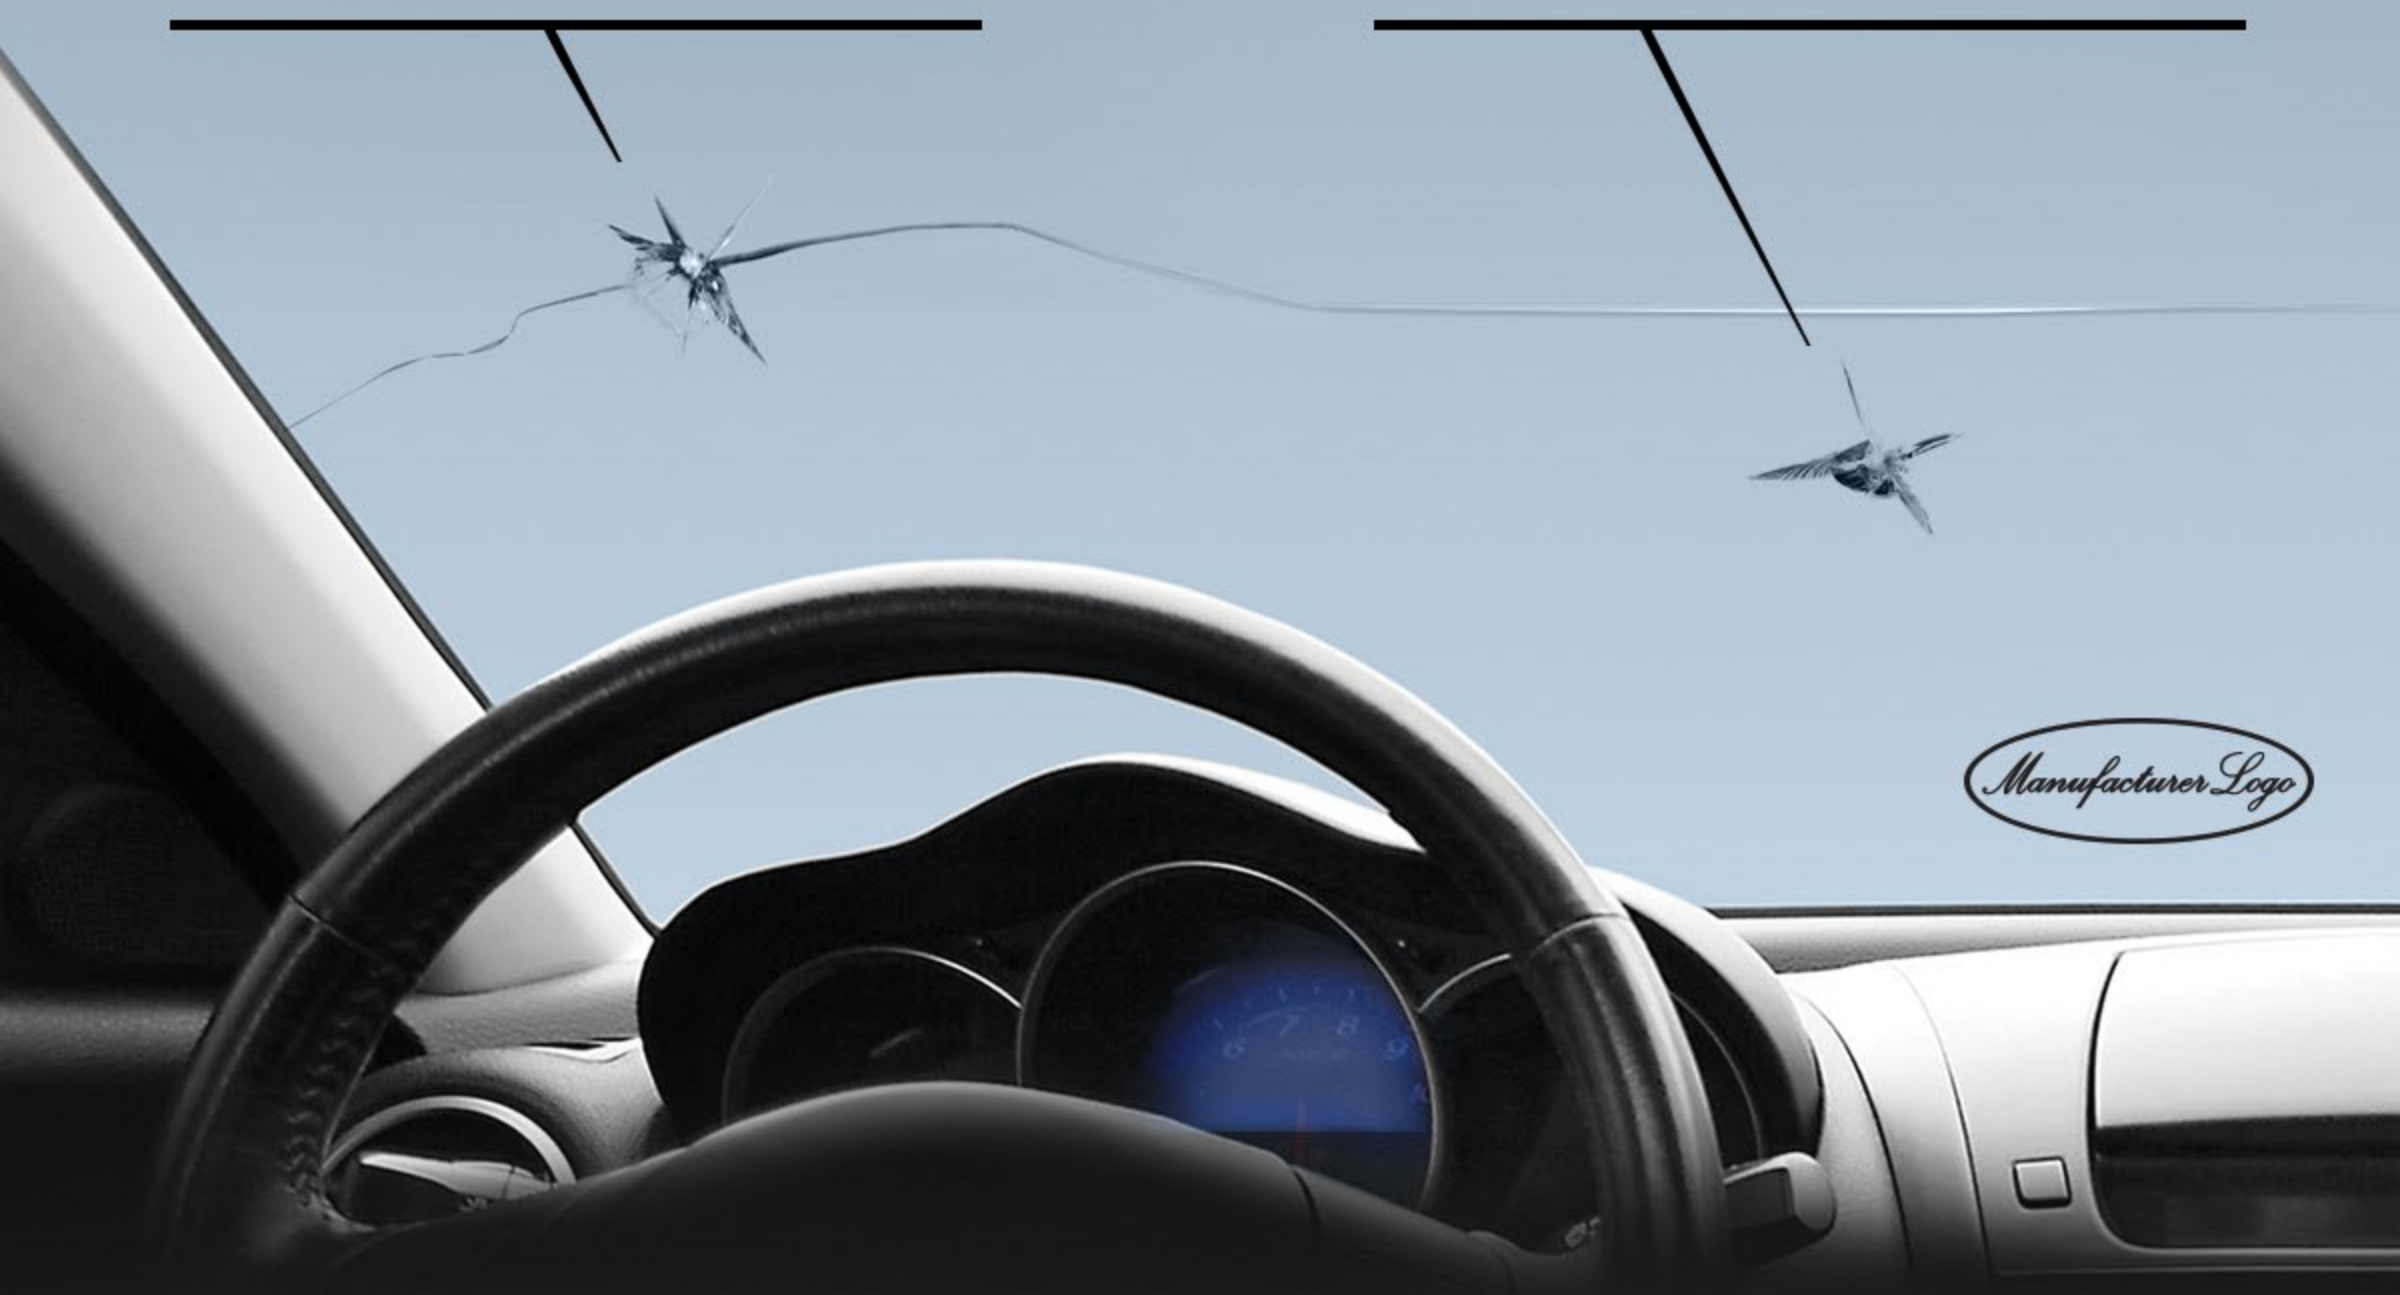

NO, you must first contact us quickly at **1-877-926-0616** or go to your dealership's service counter to assess whether you need a replacement or repair.

Does your windshield need replacement?

Under certain conditions from your insurer, your dealer replaces it with the manufacturer's original windshield.

A small break in your windshield?

Your dealer will repair it for free if you are insured.

Is an original windshield with the manufacturer's official logo more expensive for you?

No, absolutely not. If you have window breakage insurance, you only have to pay your deductible indicated on your insurance policy and that's it. On the other hand, if you only need a repair it is free for you if you are insured.

The manufacturer's original windshield is only available from your dealership.

REMEMBER, YOUR DEALER IS THERE TO FIX ALL YOUR **WINDSHIELD PROBLEMS**.
